Fund Currency: GBP Share Class Currency: GBP

Janus Henderson  
INVESTORS

A sub-fund of Janus Henderson UK Property PAIF, a UK OEIC managed by Henderson Investment Funds Limited.

### Objective and investment policy

#### Objective

The Fund aims to provide a high and increasing level of income as well as capital growth over the long term (5 years or more). The Fund will be a Property Authorised Investment Fund (PAIF) for tax purposes at all times.

#### Investment policy

The Fund invests at least 60% of its assets in UK commercial real estate and in shares and bonds of UK companies in the real estate industry.

The Fund may also invest in other assets including cash and bank deposits, money market instruments, non-UK commercial real estate, residential real estate, funds (collective investment schemes including exchange traded funds) and real estate outside of the UK.

The investment manager may use derivatives (complex financial instruments) to reduce risk or to manage the Fund more efficiently.

The Fund is actively managed with reference to the IA UK Direct Property sector average, which is based on a peer group of broadly similar funds, as this can provide a useful comparator for assessing the Fund's performance.

#### Strategy

The investment manager seeks to own a broad mix of high-quality commercial properties across UK regions and sectors, with a South

East bias, which in many cases look set to benefit from long-term consumer, demographic, and technological trends. The investment process focuses on location, tenant strength, lease length, lease structure, building quality, and sustainability considerations.

**Distribution policy** The Fund offers accumulation shares (shares in which net income is retained within the price) and income shares (shares in which net income may be paid out to investors).

**Recommendation** This Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

The Fund is designed to be used only as one component of several in a diversified investment portfolio. Investors should consider carefully the proportion of their portfolio invested into this Fund.

You can buy, sell or switch shares in the Fund on any business day, as defined in the Fund Prospectus.

For an explanation of some of the terms used in this document, please visit the glossary on our website at [www.janushenderson.com](http://www.janushenderson.com).

### Risk and reward profile

The value of an investment and any income from it can go up or down. When you sell your units they may be worth less than you paid for them.

The following risks apply to investments in the Fund. These could be triggered or made worse by unusual market conditions or unpredictable market events.

**Country or Region** If a Fund has a high exposure to a particular country or geographical region it carries a higher level of risk than a Fund which is more broadly diversified.

**Derivatives** The Fund may use derivatives with the aim of reducing risk or managing the portfolio more efficiently. However this introduces other risks, in particular, that a derivative counterparty may not meet its contractual obligations.

**Buy-Sell Spread** "This Fund is dual priced. The price at which you buy shares/units in the fund will incorporate the transaction costs incurred in buying physical properties. When you sell shares/units in the Fund the price you sell at incorporates the transaction costs incurred in selling physical properties. The difference between these prices is called the 'spread'. This spread is currently c. 5% and reflects the high transaction costs of buying and selling commercial property. Typically the buying price of an individual commercial property can be 7-8% higher than the

selling price. The spread of the Fund is not fixed and may vary over time depending on the composition of the Fund."

**Property Valuations** Valuations are determined by independent property experts. The valuation of property is generally a matter of valuer's opinion. The amount raised when a property is sold may be less than the valuation.

**Illiquid Assets** The Fund contains assets which may be hard to value or sell at the time and price intended. In particular, property investments may take a considerable time to sell. When many investors want to sell their shares, the Fund may have to delay processing requests so that certain assets or properties can be sold first (this is known as deferring redemptions). In exceptional circumstances the Fund may have to suspend redemptions.

**Tenant Risk** Tenants in the Fund's properties may become unable to pay their rent. As a result, the Fund's income may be impacted and further costs incurred.

**Charges to Capital** Some or all of the ongoing charges may be taken from capital, which may erode capital or reduce potential for capital growth.

**Counterparties** The Fund could lose money if a counterparty with which it trades becomes unwilling or unable to meet its obligations to the Fund. For more information please see the Fund Prospectus.

## Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of managing and distributing it. These charges reduce the potential growth of your investment.

If you invest through a third party provider you are advised to consult them directly as charges, performance and terms and conditions may differ materially to those shown in this document.

### One-off charges taken before or after you invest\*

Entry Charge	0.00%
Exit Charge	0.00%**

\* The charges shown are maximum figures. In some cases you may pay less.

\*\* Subject to a charge of up to 3.00% where the Manager suspects excessive trading by an investor (and specifically on subscriptions held for less than 90 days).

## Past performance

### Charges taken from the Fund over a year

Ongoing Charges	0.84%
-----------------	-------

The ongoing charges are based on last year's expenses for the year ending 31 May 2019. Ongoing charges may vary from year to year.

The figure for ongoing charges excludes portfolio transaction costs, except in the case of an initial charge paid by the Fund when buying shares or units in another fund.

For more information please see the Fund Prospectus.

The past performance is calculated in GBP.

The Fund and the share class were launched in June 1999.

Past performance is not a guide to future performance.

This share class launched on 29 August 2014. Therefore, past performance information for the corresponding share class of the Henderson UK Property Unit Trust has been used in the graph above.

The past performance shown in the chart takes into account all charges except one-off charges.

The Fund does not aim to track the performance of the index.
